## Annex C

Status of Submissions and Implementation Status of Mitigation Measures under EP

## Annex C Status of Submissions and Implementation Status of Mitigation Measures under EP

| EP         | Submission / Implementation Status          | Status                                 |
|------------|---|--|
| Condition  |   |  |
| 2.1        | Set up of Community and Professional        | Community and Professional Liaison     |
|            | Liaison Groups                              | Groups were set up.                    |
| 2.1        | Complaint Management Plan                   | Accepted by EPD                        |
| 2.5        | Employment of Qualified Ecologist(s)        | Qualified Ecologists have been         |
|            |   | employed to carry out work relating to |
|            |   | ecological aspects.                    |
| 2.6        | Employment of Surveillance Team             | Surveillance Team has been employed    |
| <b></b> .0 | Employment of our tenance reuni             | to conduct regular site inspection.    |
| 2.11       | Management Organizations                    | Accepted by EPD                        |
| 2.11       | Construction Works Schedule and             | Accepted by EPD                        |
| 2.12       | Location Plans                              | Accepted by El D                       |
| 2.13       | Works Vessel Travel Route Plan              | A accepted by EDD                      |
|            |   | Accepted by EPD                        |
| 2.14       | Eco-shoreline Implementation Plan           | To be prepared no later than 3 months  |
|            |   | before the commencement of             |
|            |   | construction of the eco-shoreline at   |
|            |   | TCE                                    |
| 2.15       | Dolphin Watching Plan                       | Updated Plan was submitted on 21       |
|            |   | September 2018 and accepted by EPD     |
|            |   | on 12 October 2018                     |
| 2.16       | Silt Curtain Deployment Plan                | Updated Plan was submitted and         |
|            |   | accepted by EPD on 6 June 2019         |
| 2.17       | Spill Response Plan                         | Accepted by EPD                        |
| 2.18       | Plan on Provision of Buffer Zones           | To be prepared no later than 3 months  |
|            |   | before the commencement of             |
|            |   | construction works at Tung Chung       |
|            |   | Valley                                 |
| 2.19       | River Park Plan                             | To be prepared no later than 3 months  |
| _,_,       |   | before the commencement of             |
|            |   | construction works at Tung Chung       |
|            |   | Valley                                 |
| 2.20       | Habitat Enhancement and Translocation       | To be prepared no later than 3 months  |
| 2.20       | Plan for Amphibian Species of               | before the commencement of             |
|            | Conservation Importance                     | construction works at Tung Chung       |
|            | Conservation importance                     | Valley                                 |
| 2.21       | Detailed Duccounstion and I am              | 3                                      |
| 2.21       | Detailed Preservation and/or                | To be prepared no later than 3 months  |
|            | Translocation Plan for Plant Species of     | before the commencement of             |
|            | Conservation Importance                     | construction works at Tung Chung       |
|            | B. 11.10                                    | Valley                                 |
| 2.22       | Detailed Compensatory Woodland              | To be prepared no later than 3 months  |
|            | Planting Plan                               | before the commencement of             |
|            |   | construction works at Tung Chung       |
|            |   | Valley                                 |
| 2.23       | Plan for Review of Use of New Low Noise     | To be prepared no later than 3 months  |
|            | Road Surfacing Material(s)                  | before the commencement of             |
|            |   | roadworks                              |
| 2.24       | Waste Management Plan                       | Accepted by EPD                        |
| 2.25       | (i) no dredging of marine sediment shall    | Under implementation                   |
|            | be carried out for the Project              | -                                      |
|            | (ii) all reclamation filling works shall be | Under implementation                   |
|            | carried out within a leading seawall of     | 1                                      |
|            | at least 200m; and                          |  |
|            | (iii) silt curtains surrounding the         | Under implementation                   |
|            | reclamation area shall be deployed in       |  |
|            | accordance with the Silt Curtain            |  |
|            | Deployment Plan                             |  |
|            | Deployment I tun                            |  |

| ED              | Culturation / Irration and the Color  | Chahra                 |
|-----------------|---|------------------------|
| EP<br>Condition | Submission / Implementation Status  | Status                 |
| 2.26            | Implement Silt Curtain Deployment Plan                                      | Under implementation   |
| 2.20            | and Spill Response Plan   | Officer imprementation |
| 2.27            | Implement dolphin exclusion zone of   | Under implementation   |
|                 | 250m around the reclamation site at Tung                                    | 1                      |
|                 | Chung East during the installation of the                                   |                        |
|                 | perimeter silt curtains and any re-   |                        |
|                 | deployment of the perimeter silt curtains                                   |                        |
|                 | by Qualified Ecologist(s)   |                        |
| 2.28            | Once the perimeter silt curtains are  | Under implementation   |
|                 | installed or re-deployed, the Dolphin                                       |                        |
|                 | Watching Plan shall be implemented as                                       |                        |
| 2.20            | part of the EM&A programme  | TT 1 . 1               |
| 2.29            | (i) no underwater blasting and  | Under implementation   |
|                 | percussive piling shall be carried out for                                  |                        |
|                 | the Project; and (ii) air compressors and other noisy                       | Under implementation   |
|                 | equipment mounted on works vessels  | Onder implementation   |
|                 | shall be acoustically-decoupled   |                        |
| 2.30            | Implement Works Vessel Travel Route   | Under implementation   |
|                 | Plan  | 1                      |
|                 | Implement Eco-shoreline Implementation                                      | To be implemented      |
|                 | Plan  | -                      |
|                 | Implement Dolphin Watching Plan   | Under implementation   |
| 2.31            | Implement Plan on Provision of Buffer                                       | To be implemented      |
|                 | Zones, River Park Plan, Habitat   |                        |
|                 | Enhancement and Translocation Plan for                                      |                        |
|                 | Amphibian Species of Conservation   |                        |
|                 | Importance, Detailed Preservation and/or                                    |                        |
|                 | Translocation Plan for Plant Species of                                     |                        |
|                 | Conservation Importance and Detailed<br>Compensatory Woodland Planting Plan |                        |
| 2.32            | Implement Plan for review of the use of                                     | To be implemented      |
| 2.02            | new road surfacing material(s)  | To be implemented      |
|                 | Implement Waste Management Plan   | Under implementation   |
| 2.33            | Install noise barriers and low noise road                                   | •                      |
|                 | surfacing at the extended Chung Mun   | •                      |
|                 | Road and Road D3  |                        |
|                 | All noise mitigation measures   |                        |
|                 | implemented shall be properly   |                        |
|                 | maintained during the operation of the                                      |                        |
|                 | above roads   |                        |
| 2.34            | Implement a deodouriser with an odour                                       | To be implemented      |
|                 | removal efficiency of at least 95% shall be                                 |                        |
|                 | installed, operated and maintained within each sewage pumping station. The  |                        |
|                 | exhaust of the deodouriser shall be   |                        |
|                 | oriented away from sensitive receivers;                                     |                        |
|                 | and all odourous facilities of each   |                        |
|                 | sewage pumping station shall be   |                        |
|                 | enclosed and negative pressure shall be                                     |                        |
|                 | maintained within the facilities.   |                        |
| 2.35            | Enclose all the pumps inside a building                                     | To be implemented      |
|                 | structure   |                        |
|                 |   |                        |

| EP        | Submission / Implementation Status       | Status            |
|-----------|--|-------------------|
| Condition |  |                   |
| 2.36      | (i) a 100% standby pumping capacity      | To be implemented |
|           | shall be installed and maintained        |                   |
|           | (ii) a 50% spare pumping capacity shall  | To be implemented |
|           | be installed and maintained              |                   |
|           | (iii) dual-feed power supply shall be    | To be implemented |
|           | installed and maintained; and            |                   |
|           | (iv) an emergency facility with a 6-hour | To be implemented |
|           | storage capacity of average dry weather  |                   |
|           | flow shall be installed and maintained.  |                   |
