2.25	(i) no dredging of marine sediment shall	Under implementation
	be carried out for the Project	
	(ii) all reclamation filling works shall be	Under implementation
	carried out within a leading seawall of	
	at least 200m; and	
	(iii) silt curtains surrounding the	Under implementation
	reclamation area shall be deployed in	
	accordance with the Silt Curtain	
2.26	Deployment Plan	TTo Journal on outstien
2.26	Implement Silt Curtain Deployment Plan	Under implementation
2.27	and Spill Response Plan Implement dolphin exclusion zone of	Under implementation
2.21	250m around the reclamation site at Tung	Order implementation
	Chung East during the installation of the	
	perimeter silt curtains and any re-	
	deployment of the perimeter silt curtains	
	by Qualified Ecologist(s)	
2.28	Once the perimeter silt curtains are	Under implementation
	installed or re-deployed, the Dolphin	
	Watching Plan shall be implemented as	
	part of the EM&A programme	
2.29	(i) no underwater blasting and	Under implementation
	percussive piling shall be carried out for	
	the Project; and	** 1 . 1
	(ii) air compressors and other noisy	Under implementation
	equipment mounted on works vessels shall be acoustically-decoupled	
2.30	Implement Works Vessel Travel Route	Under implementation
2.30	Plan	Chaci implementation
	Implement Eco-shoreline Implementation	Under implementation
	Plan	
	Implement Dolphin Watching Plan	Under implementation
2.31	Implement Plan on Provision of Buffer	Detailed Preservation and/or
	Zones, River Park Plan, Habitat	Translocation Plan for Plant Species of
	Enhancement and Translocation Plan for	Conservation Importance and Detailed
	Amphibian Species of Conservation	Compensatory Woodland Planting Plan
	Importance, Detailed Preservation and/or	are under implementation
	Translocation Plan for Plant Species of	
	Conservation Importance and Detailed	
2.22	Compensatory Woodland Planting Plan	To be implemented
2.32	Implement Plan for review of the use of new road surfacing material(s)	To be implemented
	Implement Waste Management Plan	Under implementation
2.33	Install noise barriers and low noise road	To be implemented
2.00	surfacing at the extended Chung Mun	10 be implemented
	Road and Road D3	
	All noise mitigation measures	
	implemented shall be properly	
	maintained during the operation of the	
	above roads	

ED	Culturistics / Invalormentation Status	Chabrin
EP	Submission / Implementation Status	Status
Condition		
2.34	Implement a deodouriser with an odour	To be implemented
	removal efficiency of at least 95% shall be	
	installed, operated and maintained within	
	each sewage pumping station. The	
	exhaust of the deodouriser shall be	
	oriented away from sensitive receivers;	
	and all odourous facilities of each	
	sewage pumping station shall be	
	enclosed and negative pressure shall be	
	maintained within the facilities.	
2.35	Enclose all the pumps inside a building	To be implemented
	structure	
2.36	(i) a 100% standby pumping capacity	To be implemented
	shall be installed and maintained	
	(ii) a 50% spare pumping capacity shall	To be implemented
	be installed and maintained	
	(iii) dual-feed power supply shall be	To be implemented
	installed and maintained; and	
	(iv) an emergency facility with a 6-hour	To be implemented
	storage capacity of average dry weather	
	flow shall be installed and maintained.
