| 2 11            | Managament Organizations (for Contracts            | to conduct regular site inspection.  Updated Submission was submitted to |
| 2.11            | Management Organizations (for Contracts            | -  |
|                 | 1, 2, 3 and 7)                                     | EPD on 1 June 2022 and accepted by                                       |
| 2.12            | Construction Works Cabadula and                    | EPD on 7 June 2022   |
| 2.12            | Construction Works Schedule and                    | Updated Plan was accepted by EPD on 3 March 2023                         |
| 0.10            | Location Plans (for Contracts 1, 2, 3 and 7)       |  |
| 2.13            | Works Vessel Travel Route Plan (for                | Accepted by EPD  |
| 2.14            | Contract 1)  Ess charging Implementation Plan (for | Undated Dlan year assented by EDD on                                     |
| 2.14            | Eco-shoreline Implementation Plan (for Contract 1) | Updated Plan was accepted by EPD on 24 July 2023                         |
| 2.15            | Dolphin Watching Plan (for Contract 1)             | Updated Plan was submitted on 21   |
|                 | F (  | September 2018 and accepted by EPD                                       |
|                 |  | on 12 October 2018   |
| 2.16            | Silt Curtain Deployment Plan (for                  | Updated Plan was accepted by EPD on                                      |
|                 | Contract 1)  | 24 April 2023  |
| 2.17            | Spill Response Plan (for Contract 1)               | Accepted by EPD  |
| 2.18            | Plan on Provision of Buffer Zones                  | To be prepared no later than 3 months                                    |
|                 |  | before the commencement of   |
|                 |  | construction works at Tung Chung   |
|                 |  | Valley. Refer to the EM&A Reports of                                     |
|                 |  | TCW.   |
| 2.19            | River Park Plan                                    | To be prepared no later than 3 months                                    |
|                 |  | before the commencement of   |
|                 |  | construction works at Tung Chung   |
|                 |  | Valley. Refer to the EM&A Reports of                                     |
|                 |  | TCW.   |
| 2.20            | Habitat Enhancement and Translocation              | To be prepared no later than 3 months                                    |
|                 | Plan for Amphibian Species of                      | before the commencement of   |
|                 | Conservation Importance                            | construction works at Tung Chung   |
|                 |  | Valley. Refer to the EM&A Reports of                                     |
|                 |  | TCW.   |
| 2.21            | Detailed Preservation and/or                       | Accepted by EPD on 9 December 2021                                       |
|                 | Translocation Plan for Plant Species of            |  |
|                 | Conservation Importance                            |  |
| 2.22            | Detailed Compensatory Woodland                     | The Plan was submitted to EPD on 10                                      |
|                 | Planting Plan                                      | June 2022 and accepted with conditions                                   |
|                 |  | by EPD on 23 June 2022   |
| 2.23            | Plan for Review of Use of New Low Noise            | The revised Plan was submitted to EPD                                    |
| 2.21            | Road Surfacing Material(s)                         | on 20 December 2023  |
| 2.24            | Waste Management Plan (for Contracts 1,            | Updated Plan was accepted by EPD on                                      |
|                 | 2, 3 and 7)  | 18 May 2023  |

| EP        | Submission/Implementation Status   | Status                                  |
|-----------|--|---|
| Condition | , 1  |   |
| 2.25      | (i) no dredging of marine sediment shall                                       | Completed                               |
|           | be carried out for the Project   |   |
|           | (ii) all reclamation filling works shall be                                    | Completed                               |
|           | carried out within a leading seawall of  |   |
|           | at least 200m; and   |   |
|           | (iii) silt curtains surrounding the  | Completed                               |
|           | reclamation area shall be deployed in  |   |
|           | accordance with the Silt Curtain   |   |
| 2.26      | Deployment Plan  | Completed                               |
| 2.20      | Implement Silt Curtain Deployment Plan and Spill Response Plan                 | Completed                               |
| 2.27      | Implement dolphin exclusion zone of  | Completed                               |
| 2,21      | 250m around the reclamation site at Tung                                       | Completed                               |
|           | Chung East during the installation of the                                      |   |
|           | perimeter silt curtains and any re-  |   |
|           | deployment of the perimeter silt curtains                                      |   |
|           | by Qualified Ecologist(s)  |   |
| 2.28      | Once the perimeter silt curtains are   | Completed                               |
|           | installed or re-deployed, the Dolphin  |   |
|           | Watching Plan shall be implemented as  |   |
|           | part of the EM&A programme   |   |
| 2.29      | (i) no underwater blasting and   | Completed                               |
|           | percussive piling shall be carried out for                                     |   |
|           | the Project; and   | Committed                               |
|           | (ii) air compressors and other noisy   | Completed                               |
|           | equipment mounted on works vessels shall be acoustically-decoupled             |   |
| 2.30      | Implement Works Vessel Travel Route  | Completed                               |
|           | Plan   | completed                               |
|           | Implement Eco-shoreline Implementation   | Under implementation                    |
|           | Plan   | •                                       |
|           | Implement Dolphin Watching Plan  | Completed                               |
| 2.31      | Implement Plan on Provision of Buffer  | Detailed Preservation and/or            |
|           | Zones, River Park Plan, Habitat  | Translocation Plan for Plant Species of |
|           | Enhancement and Translocation Plan for   | Conservation Importance and Detailed    |
|           | Amphibian Species of Conservation  | Compensatory Woodland Planting Plan     |
|           | Importance, Detailed Preservation and/or                                       | are under implementation                |
|           | Translocation Plan for Plant Species of  |   |
|           | Conservation Importance and Detailed   |   |
| 2.32      | Compensatory Woodland Planting Plan<br>Implement Plan for review of the use of | To be implemented                       |
| 2.52      | new road surfacing material(s)   | 10 be implemented                       |
|           | Implement Waste Management Plan  | Under implementation                    |
| 2.33      | Install noise barriers and low noise road                                      | To be implemented                       |
|           | surfacing at the extended Chung Mun  | 1                                       |
|           | Road and Road D3   |   |
|           | All noise mitigation measures  |   |
|           | implemented shall be properly  |   |
|           | maintained during the operation of the   |   |
|           | above roads  |   |

| EP        | Submission / Implementation Status          | Status            |
|-----------|---|-------------------|
| Condition |   |                   |
| 2.34      | Implement a deodouriser with an odour       | To be implemented |
|           | removal efficiency of at least 95% shall be |                   |
|           | installed, operated and maintained within   |                   |
|           | each sewage pumping station. The            |                   |
|           | exhaust of the deodouriser shall be         |                   |
|           | oriented away from sensitive receivers;     |                   |
|           | and all odourous facilities of each         |                   |
|           | sewage pumping station shall be             |                   |
|           | enclosed and negative pressure shall be     |                   |
|           | maintained within the facilities.           |                   |
| 2.35      | Enclose all the pumps inside a building     | To be implemented |
|           | structure                                   |                   |
| 2.36      | (i) a 100% standby pumping capacity         | To be implemented |
|           | shall be installed and maintained           |                   |
|           | (ii) a 50% spare pumping capacity shall     | To be implemented |
|           | be installed and maintained                 |                   |
|           | (iii) dual-feed power supply shall be       | To be implemented |
|           | installed and maintained; and               |                   |
|           | (iv) an emergency facility with a 6-hour    | To be implemented |
|           | storage capacity of average dry weather     |                   |
|           | flow shall be installed and maintained.     |                   |
